ENGLISH CURRICULUM 英語課程

為了提升幼兒的兩文三語,學校在每個星期五都會舉行 Amazing Friday, 進行 Amazing English 及普通話增潤課 程,專科老師利用 Amazing Pen 配合字卡及海報進行活動, 加強幼兒聆聽及閱讀能力,讓幼兒亦能在家中積極學習,提升 幼兒的自學能力。

Our school is holding "Amazing Day" on every Friday, children are able to enhance biliteracy and trilingualism on listening and reading through the extracurricular of Amazing English and Mandarin programmes with the usage of Amazing pen. Children also able to apply the related techniques and learning materials at home for achieving self-learning.

Amazing pen really lives up to its name, it's truly amazing! Not only is it interactive, but it is so easy for kids to learn how to use. The simple design makes navigation intuitive as well.

Speaking 3 languages in native tongue, the pen can really assist in deepening the kids exposure to different languages. The colorful story cards also

keep kids attracted, and learn through

play. We are very appreciative that TWGHs was able to get sponsorship for this pen, allowing all the students an equal chance to learn in a whole new way! Thank you TWGHs TKKKG!

Storybook Approach

Our kindergarten uses a storybook approach to teach students English language

skills. The storybook approach acts as a springboard for a wide variety of activities to develop children's English language skills through the content of the book. We sing songs, play games, such as guessing, matching, sequencing, labelling, classifying, songs, chants, role play and make art and crafts that are related to the storybook. Children learn to appreciate literature more which will increase their interest in learning the English language. Storybooks encourage children's' imagination,

exploring other cultures and teach them about the world.

Music Activities

We have music in English everyday. The songs we sing are related to the storybooks.

Music is a great for learning about culture, vocabulary, listening, grammar and a host of other language skills with just a few rhymes. Music can also provide a way for children to express themselves. Most of all music activities are very enjoyable for the children.

Physical Activities

Native English Teacher join our PE lesson! We often use gestures to identify the

motor actions with English words. For example: We act as a model, stressing the English expression to describe the action. We encourage the students to speak English, giving positive feedback to reward the effort of every student. Children will participate and learn the following movements, jumping, throwing, catching, running, skipping and balancing. Students are given instructions in English, so they will have to listen and understand to participate in the activities. PE activity using English, which students really enjoy.

Jolly Phonics

Our school uses Jolly Phonics to teach students phonics. Jolly Phonics is a fun and

child centred approach to teaching literacy through synthetic phonics. It divided the letter sounds into 7 groups and each sound comes with an accompanying picture, action, song and tune. With actions for each of the 42 letter sounds, both children and teachers can demonstrate and present their learning through different learning settings. Students will develop their phonetic

awareness gradually throughout the years in TKK.
